"Taking Responsibility for Torah"

# SUMMER BEIT MIDRASH 2018

## July 2 – August 9

### at YOUNG ISRAEL OF SHARON

Since 1997, the Summer Beit Midrash (SBM) has provided college, graduate, and rabbinic students with the opportunity to think seriously and deeply about halakhah in an intense but open learning environment. SBM is unique in its successful combination of top-level traditional study of rabbinic texts with complete openness to the critiques and insights of other methods, disciplines, and cultures; its focus on halakhah as a functional legal and political system rather than as a collection of details; and its ability to engage the most difficult theological and ethical issues within halakhah in a strongly supportive and completely committed Orthodox environment.

SBM studies themes with contemporary moral, political, and intellectual resonance through *havruta* study; an interactive shiur given by Rabbi Aryeh Klapper; and guest lectures from leading experts. Fellows also deliver public shiurim.

**SBM invites 10 – 12 outstanding men and women to join.  
Food, housing, and fellowships are provided.**
